

Help: What is the Resizr.com Privacy Policy?

- 1) We don't share your pictures without your consent. You could consent to us sharing your image by using features of the program specific to our giving data to others, like the "E-Mail This Photo" option. (By its very nature, emailing a photo is sharing that photo!)
- 2) We don't share your e-mail address with advertisers.
- 3) We won't spam you. However, we do reserve the right to send very infrequent site updates.

Unique solution ID: #1021
