

Help: I didn't get my validation code in E-Mail.

This can occur sometimes. What do you do?

1. Please wait a little while, to be sure to give the system some time. (The tubes might be clogged).
2. Check your SPAM or Bulk E-Mail folders.
3. Make sure that you used the right email address.
4. Try again.
5. E-Mail resizr@resizr.com with the email address you used. It's possible that there is a problem with our e-mail server talking to your e-mail server. We like to know about this kind of problem so we can resolve the issue as soon as possible.

Thanks for resizing!
