

Help: What is the maximum size that can be uploaded into the Resizr? My jpgs from my camera are 2.34MB and I'm having problems getting them resized.

The absolute maximum file size is 5.5 megabytes. However, we are unable to handle some files because we have limited resources. Therefore, we are unable to resize some files that are less than 5.5 megabytes in size.

Unique solution ID: #1030
