

Cellphone Help: I don't see my provider on the list.

Resizr works by sending a short email to your provider. For example, sending an email to NNNNNNNNNNN@cingularme.com sends a text message to your cellphone. Many of the providers have SMS-Email gateways.

If you don't see your provider in the list, then either your provider doesn't provide a gateway or we haven't found it yet. Please let us know! Either ask a question in this FAQ or send an email to resizr@resizr.com
